Systems Expert

Specialist

Trusted Industry Expert

As one of the largest IBM® Premier Business Partners in North America, DSI has configured, installed, and supported IBM server solutions for nearly 2,000 companies.

Complete Turnkey Solution

DSI offers a complete turnkey solution, from analyzing your current server performance to selecting, configuring, installing, integrating, and supporting your new server solution.

Wide Range Of Services

DSI can also help you address your imperatives for cost reduction, network security, virtualization, and high availability.

Certified IT Professionals

DSI systems engineers are certified by our hardware and software business partners, including IBM, Microsoft, and VMWare, and have performed thousands of successful installations.

Expertise In Oracle's JD Edwards Applications

More than 1,600 JD Edwards clients have turned to DSI for our special expertise in optimizing IBM servers for use with JD Edwards EnterpriseOne and JD Edwards World enterprise applications.

Satisfied Clients

DSI clients know they can depend on DSI's certified solution developers and systems engineers to plan their system upgrades and expansions, install and configure their hardware and software solutions, and supplement their own IT staff.

"DSI's implementation of these projects was flawless, and the knowledge transfer has allowed our staff to proactively manage these critical business functions."

—Joe Mason, Global Chief Information Officer, Franklin Electric Company

"I highly recommend DSI's Technology Services team. We have a very small IT staff, so we've called DSI in several times to do equipment installs and configurations, and to supplement our in-house skill set. We've been extremely happy with their performance."

— John Lawrence, Information Services Manager, Label Technology

"I am appreciative of the after-sales support I received from the DSI team, from software licensing through installation assurance. I have come to expect world class service from DSI and I am happy to say that DSI professionals consistently meet or exceed this expectation."

—Dan Boehm, Director, Information Technology, CHROMALOX
