# Oracle MSCA Activator

*Cut Costs, Gain ROI Fast With Rapid Implementation Of Oracle's Mobile Supply Chain Applications*

If cutting costs and improving warehouse productivity is a priority, DSI® can help.

Using Oracle Mobile Supply Chain Applications (MSCA) and barcodes to capture data at the point of work enables your warehouse to work smarter and faster – with fewer errors and lower costs.

DSI can deliver Oracle MSCA Activator, a packaged MSCA implementation, in a rapid timeframe and within a defined budget, along with the barcode devices, printers, and labels you need to get a rapid return on your investment.

## Rapid Timeframe, Rapid Results

By combining the most commonly requested MSCA standard transactions and label formats with a proven project scope and methodology, DSI's implementation professionals deliver the MSCA solution quickly and at a predefined cost.

DSI works closely with your own in-house project team to configure, test, and launch the MSCA project. We also set up the data collection devices and printers, and install the label printing software.

## DSI: The Trusted Industry Expert

As an Oracle Platinum Partner with extensive MSCA implementation experience, DSI is the only national company that brings together:

- Field-tested, Oracle-certified MSCA/WMS implementation consultants
- Barcoding and labeling expertise to select, source, and support RF devices and barcode printers, locator labeling, label media, and supplies
- Wireless networking expertise to specify, source, and install wireless networking
- Manufacturing and warehousing process experience that enables us to work quickly and optimize your ROI.

## Are You Ready For Oracle MSCA?

Oracle MSCA Activator is designed for users of Oracle E-Business Suite (version 11.5.10.2, later 11i releases, or R12) who use Oracle Inventory in a production environment. If you use an earlier or heavily modified version of Oracle E-Business Suite or your needs go beyond the scope of this package, DSI can deliver the additional MSCA transactions, customization, installation of WMS, or other follow-on services as a separate engagement.

For more information about Oracle MSCA Activator, call DSI at 1.800.217.8030.
