Unibar® ELS

Course Description

This course is designed for new users of Unibar® ELS (Enterprise Label Software) and for those who are upgrading to new releases from another label printing solution to Unibar® ELS. This course covers the installation, configuration, and administration of Unibar ELS along with practical use of ELS label designer.

This course is intended for those individuals who will be responsible for implementation and administration Unibar® ELS solutions.

Prerequisites

- Knowledge of label printing requirements
- Knowledge of label printing hardware and label media is helpful, but not required
- Knowledge of basic networking including TCP/IP is helpful, but not required
- Knowledge of ERP system data is useful if label printing will be ERP data driven

Course Description

This 3-day course uses formal lecture, demonstration, hands-on exercises, as well as Q&A dialogue to communicate the concepts involved in the implementation, administration, label design, creation, as well as label printing within the Unibar® ELS solution.

Course Content Includes:

- Course and Classroom Introduction
- Unibar ELS Introduction
- How it Works
- Pre-Installation Tasks
- Unibar ELS Installation
- Planning Labels
- Setting up the System
- Designing Labels
- Creating Labels
- Using Label Data Dictionaries
- Setting Printer Destinations
- Printing Labels
- Conclusion and Q&A Session
