

dcLINK® MOBILEApps™ is a suite of pre-packaged mobile applications for Proof of Delivery, Inventory, Route Sales, Direct Store Delivery, Field Service Automation and Inquiries and Approvals.

Built using the dcLINK® Mobile Application Platform™, MOBILEApps are designed to:

- Simplify data entry
- Increase accuracy
- Improve productivity
- Eliminate bottlenecks
- Shorten time to invoicing
- Improve customer service

dcLINK Mobile Application Platform

With one powerful platform, companies can mobilize their entire workforce, regardless of data transaction requirements, device form, connectivity or ERP system.

- Diverse mobile device deployment options
- Standard integrations to leading enterprise applications and databases
- On- and off-network functionality
- Multi-language capability
- Powerful application development tool

dcLINK® MOBILEApps™ Inventory

Don't lose track of inventory once it leaves your facility. Gain visibility to your mobile inventory, prevent loss of items and positively impact your bottom line with dcLINK MOBILEApps Inventory, a pre-packaged mobile application offered by DSI®.

With MOBILEApps Inventory, you can easily manage and maintain your fleet's mobile inventory, giving your company the ability to perform routine cycle counts, modify inventory or track specific materials for regulatory compliance from any location on a wide array of mobile devices.

- Manage parts and quantities on-hand
- Count and transfer inventory from warehouse-to-truck or truck-to-truck
- Look up product details
- Check and confirm item availability on trucks or in the warehouse

With dcLINK MOBILEApps Inventory, control and visibility of your inventory is in the palm of your hand.
