

dcLINK® MOBILEApps™ is a suite of pre-packaged mobile applications for Proof of Delivery, Inventory, Route Sales, Direct Store Delivery, Field Service Automation and Inquiries and Approvals.

Built using the dcLINK® Mobile Application Platform™, MOBILEApps are designed to:

- Simplify data entry
- Increase accuracy
- Improve productivity
- Eliminate bottlenecks
- Shorten time to invoicing
- Improve customer service

dcLINK Mobile Application Platform

With one powerful platform, companies can mobilize their entire workforce, regardless of data transaction requirements, device form, connectivity or ERP system.

- Diverse mobile device deployment options
- Standard integrations to leading enterprise applications and databases
- On- and off-network functionality
- Multi-language capability
- Powerful application development tool

dcLINK® MOBILEApps™

Proof of Delivery

With dcLINK MOBILEApps Proof of Delivery, a pre-packaged mobile application offered by DSI®, your delivery personnel are equipped with the information they need to deliver the right product at the right time and to confirm delivery with on-site signature capture, date and time stamp.

- View customer account information and delivery history
- Manage deliveries for the day and sort by priority, shipment or stop
- Track mileage at each delivery stop
- Quickly scan items for accurate delivery counts
- Create, update or delete credit for product returns
- Confirm delivery with on-site signature, date and time stamp
- Identify payment type with each delivery (check, cash or on-account)
- Print or email delivery documents such as invoices and receipts

With dcLINK MOBILEApps Proof of Delivery, virtually all of the information that your delivery personnel need to view and confirm deliveries is available in the palms of their hands.
